WHAT IS TRUEPATH TECHNOLOGIES?

We are a leading edge IT software and services company that specializes in in-house services for new or existing IT monitoring software. We offer software with an "easy to use" web based portal that provides bandwidth and line quality monitoring.

SERVICES

Leading edge managed software service provider that leverages your IT team's knowledge giving your team the ability to react and fix issues within the infrastructure.

Onsite Monitoring Server
That We
Configure & Maintain

Monitoring Server

-  We setup your monitoring software correctly
-  Our team provides long term support and changes

Industry leading solution that takes out the hassle, headache, know-how and huge upfront costs of setting up enterprise monitoring and provides it to your staff through a growing suite of tools and training.

-  Arm the different teams (Oracle, Unix, NT, etc.) with tools
-  Envelop working processes/programs that work today

SOFTWARE

Our Line Monitoring Software (LMS) takes the hassle out of setting up graphs that you need to share with your customers or providers.

Whether it's monitoring your Metro Ethernet, Network interfaces or Y731, our software has you covered.

Console and Alerts Made
Available To Your Teams

Our software is focused on ease of use; graphs and alerts that start with your customers and a built-in web portal. Schedule a demo today and see why LMS is the best!

Don't forget that our software includes base installation. First year of support is FREE and unlimited number of nodes for each node type you purchase.

WHAT'S THE INDUSTRY SAYING?

// Performance management is becoming increasingly important for enterprises as they seek to align their IT infrastructure with critical business processes to become more competitive and responsive to changing customer needs. //

IDC/Lucent Technologies

// There is also a lot of NSM "shelfware" around because of overbuying, difficulties in implementation, lack of organizational and process development, and poor-quality NSM Products. //

Gartner
